With more than 25 years of experience, the team behind AirSea Technology delivers high end equipment and world class service to airports, heliports, high rise buildings, wind turbine farms, and waterways.

Our deep industry knowledge and hands on expertise ensure that every customer receives reliable solutions tailored to the most demanding environments.

We take pride in offering state of the art products that not only meet the highest international standards but also prioritize environmental responsibility.

Our portfolio is built on strong partnerships with leading global manufacturers known for their uncompromising quality and innovative engineering.

At AirSea Technology, exceptional service and support are at the core of everything we do.

From installation and maintenance to long term operational reliability, we are committed to keeping your critical infrastructure running safely and efficiently.

If your Heliport is missing essential equipment, we are ready to assist.

Get in touch with us – we're here to help.

Description

Halogen airfield lamp with integrated reflector

Features/Benefits

- High and constant lumen output
- Long-Lifetime (LL)
- Excellent optical adjustment
- Strong focus light

Application

- Approach and threshold lights
- Runway and taxiway lights
- Stopbar and touch-down zone lights

Description

Halogen airfield lamp with prefocus base and cable connector

Features/Benefits

- High and constant lumen output
- Long-Lifetime (LL), excellent optical adjustment
- Cement free prefocus base

Application

- Approach and threshold lights
- Runway and taxiway lights
- Stopbar and touch-down zone lights
- Visual approach slope indicator systems (e.g. PAPI)

LAMPS WITH CABLE CONNECTOR

Lamps have different cable connector to get always a perfect electrical contact to light fixture. It is far away from the pinching area to reduce risks of overheating pinch or molybdenum foil. Besides standard male, female or round connector is also a rectangular female connector available.

This connector is characterized by an additional isolation
